TO: The President of the Company Addressed
RE: Special Call for Workmen's Compensation Insurance
Experience Data

Dear Sir:

At the present time, the Virginia Bureau of Insurance is participating in a study into the reasons for the poor Workmen's Compensation Insurance experience in Virginia in recent years which may ultimately lead to remedial legislation. This study resulted from a request by the State Legislature, and participants include the insurance industry, the Bureau of Insurance, the Industrial Commission of Virginia, business and labor.

A number of task forces have been formed to look into various aspects of the problem. One such area being studied is the rate-making data base. This work will require the submission of certain experience data by major carriers in the State.

It is critical that this information be obtained. Therefore, this request is being made pursuant to Article 1, Chapter 4, (Section 38.1-159 et seq.) of Title 38.1 of the Code of Virginia, which requires licensed insurers to file reports, exhibits or statements as the State Corporation Commission deems necessary.

Enclosed are forms which indicate the necessary information concerning your company's Virginia Workmen's Compensation Insurance experience. The information should be supplied for calendar years 1973 through 1977, based on your direct experience in Virginia. A separate sheet is supplied for each such Calendar Year.

Only Virginia Workmen's Compensation experience should be included, and, where indicated on the forms, the total must agree with your Annual Statement Page 14 filings with the Virginia Bureau of Insurance.
